Passed November 19, 1971.

December 9, 1971  
[S. Con. Res. 6]

# PUBLIC HEALTH SERVICE HOSPITALS AND CLINICS

Whereas the improvement of national health care is one of the Nation's great goals; and

Whereas the Nation urgently needs more medical services in areas that do not have adequate medical facilities; and

Whereas the Public Health Service was created by an Act of Congress in 1798, and the Congress broadened its responsibilities in 1956, in 1966, and in 1970 to provide comprehensive health care for mer-

chant seamen, coastguardsmen, and military personnel and their families, and preventive medical care for urban and rural areas with inadequate medical facilities; and

Whereas the Public Health Service facilities provide medical services to more than one-half million people annually who could not obtain these services in the overcrowded private hospitals or on a first priority basis in the Veterans' Administration hospitals; and

Whereas the fiscal 1972 health budget proposes a reduction in funds and personnel for Public Health Service hospitals and clinics; and

Whereas the Emergency Health Personnel Act of 1970 provides an opportunity for expanded use of Public Health Service facilities to offer health care services to medically underserved areas; and

Whereas all resources of the Federal Government should be brought to bear on drug addiction and drug abuse; and

Whereas the Public Health Service hospitals, outpatient clinics, and the clinical research center are valuable resources for treatment of drug addicts and drug abusers: Now, therefore, be it

84 Stat. 1868,  
42 USC 254b  
note.

*Resolved by the Senate (the House of Representatives concurring),* That it is the sense of Congress that the Public Health Service hospitals and outpatient clinics, and the clinical research center located at Lexington, Kentucky, should remain open and remain within the Public Health Service at this time. The importance of health care delivery in urban and rural areas is so great that the Administration should fund and staff these facilities at a sufficient level to allow them to perform their multiple responsibilities during the entire fiscal year 1972. During this period, the Secretary and the Congress should explore the resources and capabilities of these facilities in their communities, to determine which facilities should continue to be operated by the Public Health Service, which facilities should be converted to community operation, and which facilities, if any, should be closed.

SEC. 2. It is the further sense of Congress that the hospitals, outpatient clinics, and the clinical research center of the Public Health Service should be considered an integral part of the national health care delivery system.

Agreed to December 9, 1971.

#### "SOVIET SPACE PROGRAMS, 1966-70"

December 9, 1971  
[S. Con. Res. 30]

*Resolved by the Senate (the House of Representatives concurring),* That the study entitled "Soviet Space Programs, 1966-70", prepared for the use of the Senate Committee on Aeronautical and Space Sciences by the Congressional Research Service with the cooperation of the Law Library, Library of Congress, be printed with illustrations as a Senate document, and that there be printed three thousand additional copies of such document for the use of that committee.

Printing as  
Senate document;  
additional copies.

Agreed to December 9, 1971.

#### PRAYERS OFFERED BY REVEREND EDWARD L. R. ELSON

December 9, 1971  
[S. Con. Res. 34]
